The image shows a PowerShell terminal window and a web browser window. The terminal window, titled 'pwsh in', displays the PowerShell 7.5.1 prompt and the execution of a script. The script sets the HTML files location to 'E:\New_Project\PowerShell\basicwebserver\html_content' and starts a PowerShell Web Server at 'http://192.168.0.100:8080/'. The browser window, titled 'PowerShell Web Server', shows the server's output in the address bar and the web page content. The web page features a logo for 'vcloud-lab.com', the title 'Basic PowerShell Server', and a search bar with the number '22' and a 'Search' button.
